

Dear Residents,

The Albany Avenue Watermain Upgrade Project Construction has started.

As reported at the April 10th, 2024 Village Board meeting, a construction contract was issued to Birdsall Excavation and Construction, LLC to install a new watermain along a portion of Albany Avenue.

To minimize the inconvenience associated with this construction and to rapidly conduct the work - the road will be closed with only local traffic allowed within the work area during the work week. See the attached map and newspaper public announcement.

For residents outside the construction area, we ask that you be aware of the detours and plan accordingly.

For residents within the construction area, we have several requests and information as follows:

1. There will be no parking on the odd side of the road.
2. Forty Foot lengths of 10" pipe will be stored along the odd side of the road prior to installation in a trench.
3. Portions of the sidewalk on the odd side will be closed to pedestrians during the work day.
4. Residents on the odd side of the road will need to be out of your driveway prior to 8 am each morning.

Finally, a public workshop meeting will be conducted on May 15th, 2024 at 7 pm at the Village of Kinderhook Palmer Engine & Hose Company to discuss the construction schedule and plans for new meter service installations and water connections from resident homes to the municipal shut offs.

Village of Kinderhook Board

---

**COLUMBIA COUNTY PUBLIC NOTICE**

Attention Residents of Kinderhook Village!  
Starting May 6th at 7 a.m. until 5 p.m. daily,  
Albany Ave Road will be closed between Rt. 9  
and the Albany Hudson Electric Trail (AHET),  
for Construction supporting the Albany  
Avenue water main improvement project. This  
closure is anticipated to last for approximately  
one month. We apologize for any  
inconvenience and appreciate your  
cooperation as we work to enhance our  
community's water infrastructure. Please plan  
your routes accordingly.  
Thank you for your understanding.
