- Discussions M. Browne opens meeting and explains the process that the committee is going through to update the Comprehensive Plan. He introduces N. Stolzenburg who is our consultant working with the committee to update the Comprehensive Plan and she goes over the process as well. She then does a slide show to go into further detail (attached) and then the public splits up into group to discuss strengths, weaknesses and opportunities for the Village of Kinderhook. I have attached a spread sheet that outlines those discussions. There is a general group discussion to inform the public about the survey that the committee will now put together with this information. M. Browne thanks everyone for coming and meeting is closed.
