Discussions	<p>M. Cabral opens the meeting to talk about the sign regulations with R. Piwonka, HPC Chair and Village Historian, to get her input on what needs to be updated. R. Piwonka suggests that we do a statement of purpose. M. Cabral states that we did submit that with the last update but it was not added into the code book and is not legally required to be in there. The board and Ruth went over other suggestions about more detail definitions and other changes that could be beneficial in the code book signage. M. Cabral thanked Ruth for coming in.</p> <p>M. Browne spoke about the Comprehensive Plan Update and how the village board is ready to move forward. Renee Shur has been appointed the ED Person for the Village of Kinderhook and he will be working with her and Nan on getting the process starting. He is still looking for volunteers for the committee and will have a draft of information at our next meeting.</p> <p>M. Cabral speaks about training needed and R. Fitzsimmons, Village Attorney will be setting up SEQR training in the next few months. It is also a good idea to check into other training course so all board member will do so.</p>
